Aerosol Battery Cleaner and Protector		Aerosol Belt Conditioner				

BELT-GUARD™ PLUS

Belt Conditioner

Belt-Guard Plus is an aerosol belt dressing that reduces belt slippage. It contains special resins and solvents that adhere to the belt, resulting in improved traction, better performance, reduced energy consumption, and longer belt life. It can be applied while the belt is in use and is excellent for all round, flat, or V-shaped belts made of any belt material.

APPLICATIONS: Recommended for use on all belt types.

BIG TEX®

Water Soluble Industrial Solvent

Big Tex quickly cleans and floats away carbon, creosote, dye, grease, grime, ink, mildew stains, oil, soot, wax, and other stubborn soils, yet leaves no oily residue or film. Available in both aerosol and bulk.

APPLICATIONS: Recommended for use on metal, brick, ceramic, chrome, concrete, enamel, iron, laminated, lacquered or painted surfaces, marble, plastic, rubber, and stainless steel.

CARB-O-CLEAN™ PLUS

Carburetor and Choke Cleaner

Carb-O-Clean Plus aerosol is a blend of organic solvents formulated to remove varnish, gums, and other carbon deposits. It also provides improved engine performance, gasoline consumption, and quicker starts. It contains no methylene chloride and will not harm any delicate carburetor components. Carb-O-Clean Plus can also serve as a preventive maintenance cleaner or an on-the-spot tune-up to help keep the carburetor operating at maximum fuel economy.

APPLICATIONS: Recommended for use as a carburetor and choke cleaner.

CITRUS MERLIN™

Water Extendable Clinging Engine Degreaser

Citrus Merlin uses an effective solvent-strong formula to power off resistant tar, grease, grime, road film, asphalt, protective coatings, and other hard-to-clean soils. Thickens when mixed with water to cling longer on all surfaces - even vertical ones; cleans better with less waste or run-off.

APPLICATIONS: Recommended for use to clean and degrease mechanical equipment, engines, intact painted surfaces, and other surfaces that are considered "solvent-safe."

CLEAN SLATE™, M/M

Automotive Brake Cleaner

Multi-Mist™ Clean Slate is a fast-acting formula that penetrates grease, grime, and asbestos dust to clean brakes, brake drums, and brake discs effectively. It evaporates quickly and leaves no residue. It is also noncorrosive.

APPLICATIONS: Recommended for use to clean brakes, brake drums, and brake discs.

DIAMOND WASH™

Vehicle Wash and Wax

Diamond Wash removes the toughest dirt and keeps vehicles sparkling like new. It contains powerful cleaning agents in a neutral pH formula and leaves a molecular coating of carnauba wax to protect cleaned vehicle finishes. It also contains no phosphates and can be used for hand washing, pressure washing, or in hose-end applicators.

APPLICATIONS: Recommended for use on all cars, trucks, and vehicles.

DJC-201™ II

Cleaner for Electrical Equipment

DJC-201 II cleans and degreases any electrical and electronic equipment. It applies easily and evaporates fast and clean without any residue. It has a dielectric strength of 5,000 volts. It is harmless to silicones, polyesters, nylons, epoxies, paper, rubber, phenolics, most metals, various surface coatings and paints, aluminum parts, and insulation varnish.

APPLICATIONS: Recommended for use in the cleaning of electronic cables, relays, motors, starters, controls, components, batteries, circuit breakers, alternators, HVAC equipment, and more.

DJC-201™ PS II

Cleaner for Electrical Equipment, Plastic Safe

DJC-201 PS II aerosol quickly and thoroughly cleans surfaces without dismantling equipment and evaporates fast without leaving any residue and it is safe for plastic. Simply spray on and let dry. Flushes away grease and dirt that conceal loose connections or prevent parts from moving freely. No need to wipe down or pick up residues with this non-staining, non-corrosive, CFC-free formula.

APPLICATIONS: Recommended for cleaning batteries, controls, gauges, motors, regulators, speedometers, cables, and more.

DUALSOLV™

Electric Motor Cleaner and Degreaser

Dualsolv is a non-chlorinated formula that has the ability to perform as chlorinated and flammable solvents would. It can handle the toughest grease, grime, and oil on parts and machinery and still comply with the toughest safety restrictions. It evaporates fast, leaves no residue, and has a dielectric strength of 5,000 volts. Available in both aerosol and bulk.

APPLICATIONS: Recommended for removing oil and grease from metal surfaces and electric motors. Is specifically formulated to effectively clean grease and oils on electronic and electrical parts and equipment without disassembly.

DUALSOLV™ II

Electrical Equipment Cleaner

Dualsolv II aerosol is a non-chlorinated or fluorinated solvent cleaner and has no ozone-depleting compounds. It has strong solvency and flushing action, quick evaporation, and leaves no residue. Dualsolv II is non-corrosive to most metals and will not pit light alloys or plated finishes. This product is an excellent replacement for chlorinated solvents. Available in aerosol.

APPLICATIONS: Recommended for removing oil, grease, carbon dust, and other contaminants from electrical systems. Use on electrical equipment such as electrical control panels, breaker boxes, circuit breakers, armatures, generators, switches, relays, contacts, terminals, and most other industrial electrical equipment. Excellent for use in automotive, textile, aviation, paper and lumber mills, and other industrial settings.

ELECTRA-350® PLUS

Electric Motor and Machinery Cleaner

Electra 350 Plus is an aliphatic, chlorinated solvent blend used as a solvent degreaser. It is non-corrosive, leaves no residue, has a dielectric strength of 30,000 volts, and can be applied by wiping, brushing, or spraying.

APPLICATIONS: It will remove oil and grease from metal surfaces and is excellent for cleaning and degreasing electric motors.

ELECTRA-SAF™ PLUS

Electric Motor and Machinery Cleaner

Electra-Saf Plus is a chlorinated solvent blend used as a solvent degreaser. It is noncorrosive, leaves no residue and can be applied by wiping, brushing, or spraying. It is nonconductive up to 30,000 volts. Available in both aerosol and bulk.

APPLICATIONS: It will remove oil and grease from metal surfaces and is excellent for cleaning and degreasing electric motors.

ELECTRA™ PLUS II

Electric Motor Cleaner

Electra Plus II is a non-chlorinated or fluorinated solvent cleaner and has no ozone-depleted compounds. It has strong solvency and flushing action, quick evaporation, and leaves no residue. It is non-corrosive to most metals and will not pit light alloys or plated finishes. This product is an excellent replacement for chlorinated solvents. Available in both aerosol and bulk.

APPLICATIONS: Recommended for cleaning and degreasing electric motors such as for small power hand tools, conveyors, car lifts, elevators, air condensers, printing machines, drill presses sewing machines, exhaust fans, pumps, and other industrial electrical equipment. Excellent for use in paper and lumber mills, print shops, automotive repair and tool shops, and other industrial settings.

ELECTRA-SEAL™ PLUS

Moisture Displacing Compound

Electra-Seal aerosol is a moisture displacing and corrosion inhibiting compound for electrical equipment. It displaces moisture as it is sprayed on. When the solvent evaporates it leaves a thin, continuous film which lubricates, protects against rust and corrosion, and displaces moisture.

APPLICATIONS: It is recommended for use on de-energized electrical equipment such as motors, windings, generators, transformers, relays, and switches. Do not use on computer or sensitive electronic equipment.

FLEETWASH™

Vehicle Wash Concentrate

Fleetwash is a speciality concentrate that penetrates quickly to remove soil and road film. It is free rinsing and leaves no film or residue. It may be used on all finishes and will not harm decals, lettering, rubber, chrome, plexiglass, glass, plastic, vinyl, or convertible tops.

APPLICATIONS: It can be used on cars, trucks, buses, mobile homes, boats, golf carts or anywhere an all-purpose cleaning concentrate is needed.

FRESH FORCE™

Multi-Purpose Remover

Fresh Force aerosol provides a natural alternative to harsh products. It is formulated with a naturally occurring, solvent. Fresh Force liquefies adhesives, gum, etc. to remove them from most surfaces quickly and easily. Fresh Force emits no harsh odors. It is free-rinsing; the only thing it leaves behind is a fresh, clean, citrus scent.

APPLICATIONS: Recommended for removing most adhesives, many types of graffiti, inks, gum, and paint overspray.

*Not available in CA

MOTOR POOL & FLEET

FRESH FORCE™ ED

Citrus Engine Degreaser

Fresh Force ED is a natural orange oil solvent engine degreaser that contains no acids or caustics. It is effective to use on all engine components.

APPLICATIONS: Recommended for engine degreasing.

FRESH FORCE™ VC

Natural Solvent Cleaner and Deodorizer

Fresh Force VC is a mixture of natural citrus-derived solvents, wetting agents, emulsifiers, and stabilizers. It has exceptional deodorizing powers that eliminate foul odors immediately. Its user-friendly formula contains no harsh acids, caustics, or chlorinated solvents. Fresh Force VC is also extremely versatile; it cleans and deodorizes in one product. It can even be added to other water-based cleaners for enhanced cleaning and deodorizing.

APPLICATIONS: Recommended for use as an all-purpose cleaner for most soils on many surfaces and as a deodorizer when diluted properly.

GRAB-ON™

Foaming Orange Oil Degreaser

Grab-On aerosol has a unique clinging formula that is excellent for use on vertical surfaces. It removes grease and grime and is a highly effective general-purpose degreaser. It contains no acids, caustics, or chlorinated solvents and has a pleasant fragrance. It is safe for use on most nonporous surfaces.

APPLICATIONS: Recommended for use on walls, tile and grout, all metals, concrete, masonry, baseboards, most painted surfaces, fixtures, machinery and equipment, or anywhere a degreaser is desired.

GREASE RELEASE™ WIPES, M/M

Industrial-Strength Wipes

Multi-Mist™ Grease Release Wipes are nonflammable, water-based, premoistened towelettes that are effective at removing grease, grime, oil, and stubborn soils from multiple surfaces. They can also remove water-based inks, wax film, and soap scum.

APPLICATIONS: Recommended to clean and degrease tools, equipment, and work surfaces. Can also be used on walls, floors, doors, and many other surfaces.

MANTEK 1000®

Heavy-Duty Steam Cleaner

Mantek 1000 is a nonflammable formula that cleans concrete and metal surfaces other than aluminum. It removes tough grease, grime, dirt, and oil. Works best when heated.

APPLICATIONS: Recommended for use on concrete and metal surfaces (except aluminum).

MANTEK-S™ PLUS

Heavy-Duty Industrial Solvent Degreaser

Mantek-S Plus is recommended for removing oil and grease from metal surfaces and electric motors. It is an excellent replacement for 1,1,1-trichloroethane. Evaporates quickly and leaves no residues. Available in both aerosol and bulk.

APPLICATIONS: Recommended for use on metal surfaces and electric motors.

MERLIN™

Heavy-Duty Thickened Cleaner and Degreaser

Merlin aerosol is a VOC compliant formula for cleaning and degreasing with a pleasant citrus fragrance. It rinses easily with water and clings to vertical surfaces.

APPLICATIONS: Recommended to remove grease, oil, tar, and asphalt from engines and industrial equipment.

MIGHTY BLUE™

Windshield Washer Fluid

Mighty Blue contains a windshield wiper lubricant that prevents wiper blade drag and alcohol which prevents the liquid in the windshield washer reservoir from freezing at temperatures down to -45°F. Highly concentrated formula offers exceptional value.

APPLICATIONS: Recommended for use as a windshield washer fluid and de-icer.

MTK®

Cleaner and Protective Shield

MTK is a protective coating that guards glass, vinyl, auto finishes, chrome, plexiglass, painted finishes, and laminated plastics against dust, fingerprints, and smudges. It resists scratching, marking, water spots, and soil accumulation. Contains no abrasives, wax, or acids. The product will not yellow with age or with repeated coatings. Available in both aerosol and bulk.

APPLICATIONS: Recommended for use on glass, vinyl, auto finishes, chrome, plexiglass, painted finishes and laminated plastics.

PENTRON™

Penetrating Lubricant

Pentron aerosol is a powerful release agent for removing rusted fasteners. It penetrates and softens rust, corrosion, and scale. It also cleans machine parts and tools, lubricates threads, and even protects against further rust and corrosion. Pentron is also fortified with long-lasting molybdenum and can be sprayed from any angle.

NSN# 9150-01-020-8489 (DOZ)

APPLICATIONS: Recommended for use on nuts and bolts, frozen battery terminals, speedometer cables, brake cables, rusted rims, clocks and watches, mufflers, starters, tools, air-driven tools, motor block studs and bolts, shackles, jammed locks, tailpipes, aluminum heads, gauges and pipes, rusty arbors, storing dies, rust on rings, removing oxidized metal parts, etc.

PREFERRED BRAKE™

Brake Cleaner

Preferred Brake aerosol contains chlorinated solvents and is a strong degreaser. It evaporates quickly leaving no residue.

APPLICATIONS: May be used to clean and degrease brakes.

PRO-POWER™

Non-Chlorinated Citrus Solvent

Pro-Power is a safety solvent for cleaning and degreasing electrical and mechanical equipment. It removes grease, oil, solvent-based ink, and other solvent-based materials. It contains no chlorinated, fluorinated, or aromatic solvents; instead, its formulation consists of aliphatic and natural citrus solvents. It has a pleasant orange scent, is noncorrosive, leaves no residue, and evaporates slowly for extended cleaning. Available in both aerosol and bulk.

NSN# 6850-01-416-6320 (AEROSOL/DZ)

NSN# 6850-01-383-0429 (55 GL)

APPLICATIONS: Recommended to clean and degrease electrical motors, engines, and other equipment.

*Aerosol not available in CA

PRO-POWER™ II

Non-Chlorinated Citrus Solvent

Pro-Power II quickly and effectively penetrates through the thickest, toughest grease, grime, oil and other hard to clean soils on multiple surfaces. Available in both aerosol and bulk.

NSN# 6850-01-416-8016 (5 GL)

APPLICATIONS: Recommended for use on industrial engines, machinery, and equipment.

RADI-FLUSH™

Cooling System Cleaner

Radi-Flush effectively removes harmful scale, silica gel, phosphate sludge, solder bloom, and corrosion for improved heat transfer and cooling system efficiency in any glycol-based radiator system.

APPLICATIONS: Recommended for cleaning stationary and mobile cooling systems.

RADI-GUARD™ II

Radiator Treatment

Radi-Guard II is for closed cooling systems (radiators). It is a water-based treatment to help provide superior corrosion protection while not contributing to silica gel or phosphate sludge formation. It prevents corrosion formation and maintains reserve alkalinity to extend the effectiveness of glycol solutions.

APPLICATIONS: It can also be used in systems that have no glycol and use only water as the coolant. It can be used in radiator cooling systems of any type including vehicle, machine, or piece of equipment.

REALSEAL™

Tire Sealant

RealSeal conditions tires and is guaranteed to seal tire punctures up to 1/4" in the tire tread.

APPLICATIONS: All industrial and automotive tires used in normal operation.

SETTLER™

Wetting and Dust Control Treatment

Settler effectively provides dust control and compaction of construction sites and roads. It reduces dust emissions from cement plants and keeps dust settled in mines and quarries. Settler improves street sweeping operations and settles dust to help reduce public complaints as it improves working and recreational conditions.

APPLICATIONS: Recommended for use on construction sites, on roads, in street sweepers, etc.

SOY-LUTION™

Natural Soy-Based Cleaner and Degreaser

Soy-Lution is a soy derivative-based, nonflammable product for use in removing grease, tar, asphalt, and adhesives. It is safe to use on most plastics.

APPLICATIONS: Recommended for use anywhere a less flammable degreaser is needed.

SPLIT DECISION™ SC

Oil/Water Separator Splitting Degreaser

Split Decision SC provides an unbeatable triple combination; it is environmentally conscious, cleans and degreases, and has excellent splitting characteristics. Its formula is also non-caustic, contains no hydrocarbons or VOCs, and is biodegradable. Split Decision SC allows oil/water separators to more efficiently resist emulsions and is dilutable with up to 64 parts of water.

APPLICATIONS: Recommended for removing grease, grime, oil, carbon, asphalt, tar, cutting oils, inks, smoke and soot, diesel fuel, all types of fluxes, and many other contaminants.

SUPER BIG TEX®

Water-Soluble Degreasing Solvent

Super Big Tex combines penetrants, dispersants, and emulsifiers in an advanced formula to break the bond that holds grease and dirt to surfaces. Emulsifies stubborn soils and stains and lifts them into suspension. Floors, walls, and equipment rinse clean in minutes. Contains no butyl; gives super-strong cleaning with no strong odor. Nonflammable and noncombustible; requires no special handling or storage. Contains no phosphates to harm the environment. Can be used even in enclosed areas.

NSN# 6850-01-416-8017 (5 GL)

APPLICATIONS: Recommended for use on metal, plastic, rubber, concrete, stone, and most painted surfaces. Not recommended for use on anodized aluminum. Use with caution on glass and automotive finishes (pretest in an inconspicuous area).

SUPER FOAM™

Metal Cleaner and Polish

Super Foam aerosol removes tarnish and soils to clean, polish, and protect all in one operation. It leaves a protective film to protect the surface from further oxidation and stains. It contains a grit that deep cleans, yet is safe to use on most surfaces, even marble, tile, and glass when used as directed.

APPLICATIONS: It can be used on stainless steel, brass, copper, and aluminum. Apply the product sparingly to the soiled surface and rub gently with a damp sponge, then polish with a soft cloth. Not recommended for silver.

THE MONSTER™

Triple-Duty Cleaner and Degreaser

The Monster emulsifying cleaner penetrates, emulsifies, and suspends a wide range of tough grime that builds up on floors, driveways, walls, and equipment. The fast-acting formula minimizes scrubbing to reduce labor time and costs. It also works on a wide variety of plastic, rubber, concrete and metal surfaces. Contains biodegradable surfactants.

APPLICATIONS: Recommended for use on any washable industrial surface to remove grease, motor oil, gear and hydraulic oils, transmission and brake fluids, soot, dirt and other grimy soils. Excellent for parking lots, driveways at fuel stations, restaurants, banks and pharmacies, plant, warehouse and restaurant floors, and vent hoods. Outstanding degreasing performance on quarry tile, natural stone, terrazzo, and concrete floors.

TRIG™

Concentrated Multi-Purpose Cleaner

Trig is a multi-purpose cleaner that removes soil from any washable surface. Works in hot or cold water without using caustics, abrasives, ammonia, or free alkali. Its super-concentrated formula extends with up to 100 parts water for economical and versatile cleaning and leaves no soapy film, so no rinsing is required. It will not streak like glass-cleaning solutions and it can be simply applied with a sprayer, mop, or cloth.

APPLICATIONS: Recommended for apartment complexes, hotels and motels, banks, municipal buildings, retail stores, office buildings, health spas, schools, and restaurants for use on metal, concrete, wood, glass, plastic, painted surfaces, laminated plastics, floors, walls, vinyl upholstery, and more.

TRI-MATIC™

Heavy-Duty Cleaner

Tri-Matic breaks up heavy grease, oil, and dirt deposits for easy wash away and penetrates to flush out hidden deposits in cracks and crevices. It inhibits rust and corrosion, so it helps extend equipment life. It also can be used to clean machinery and equipment without disassembly and to prepare surfaces for painting, plating, or finishing. It is nonflammable and has no harsh odors.

APPLICATIONS: Recommended for use on metals, concrete, rubber, and glass in automobile and truck repair shops, service stations, municipalities, oil fields, printing industry, industrial plants, railroad yards, marinas, aviation industry, and construction companies.

T-SHIELD™

Battery Cleaner and Protector

T-Shield aerosol penetrates to remove corrosion as well as dirt and grease. It dries to a protective coating and neutralizes acid residues from leakage. It also helps to give batteries long life under extreme conditions by cleaning and protecting. The built-in acid indicator shows when reapplication is needed.

APPLICATIONS: Recommended for use on batteries in autos, trucks, tractors, forklifts, earth moving equipment, golf carts, boats, and other vehicles.

ZZAP™ PLUS

Penetrant and Release Agent

Zzap Plus aerosol cuts rust, red or white lead, tar, grease, dirt, and deposits of carbon, graphite, and green corrosion without injury to basic metal, rubber, paint, or wood. Contains no acid or 1,1,1-trichloroethane. It frees parts in seconds even when bolts are countersunk. It assures easier release in possible fire areas near running equipment and machinery and reduces strain and breakage of parts; leaves them in a reusable condition.

APPLICATIONS: Recommended for use on rusted and corroded fasteners in all locations.

Control Usage *and* Eliminate Waste

Stainless Steel Dispenser

- Industry-preferred equipment for automatic chemical dispensing
- Dispenses into spray bottles, buckets, auto scrubbers, pump up sprayers, and other containers at the touch of a button
- Eliminates manual mixing
- 100% stainless steel cabinet
- Easily mounts to wall
